Firefly for Students

Firefly is the school's chosen online platform that brings together teachers, students and parents. It allows teachers to set work, track progress, share resources and engage parents.

Firefly makes it easy for pupils to access all the resources they need to stay organised with their school work and homework, in one place. It allows them to:

- Stay organised and submit work, from any device
- Access learning resources from anywhere
- Collaborate with teachers and peers
- Use single sign-on with Office 365

Using Firefly on a Computer or Device through a Browser

It's easy to access Firefly from any device through a browser, for example, Google Chrome or Safari, using the following link:

Firefly Login

Remember to log-in using your Office365 username and password

Firefly for Students App.

If you wish to use Firefly on a mobile device, you can download the **'Firefly for Students'** app from the app store. The app is available for most brands of mobile smartphones and tablets. Once you have downloaded the app you will need the school code. The school code is '**SAINTBEDES**'. Remember to take the Office365 option when you log-in. This can be found by scrolling down to the bottom of the log-in page on your phone and on the right-hand side of the log-in screen on a tablet.

Once you've logged into Firefly and started to use it for school work, homework and revision, you might like some ideas to help you get the most out of the system. Follow the link below to find out more.
